

GARDEN FURNITURE RANGE

Prices shown are United Kingdom retail prices inc. VAT.

IOTA's furniture is made from FRC (fibre-reinforced cement), a material which is strong, durable and relatively lightweight. The material will not fade with exposure to sun. The Grey colour will darken in the rain, and return to normal when dry. Sustained contact with muddy or dirty water should be avoided as it may cause staining. The Anthracite colour is unchanged in the wet.
